SlimStar 600 Laser for Mac

Wireless laser desktop combo for Mac system

Specially designed for Mac system users, the trendy SlimStar 600 Laser for Mac desktop sets you free from wire hassles and lets you enjoy the convenience of a reliable wireless performance without compromising traditional Mac user habits. This desktop has a wireless keyboard and a precision tacking laser mouse, it enhances your working efficieny and puts something practical and different from other Mac users on your desk.

The keyboard fetaures 12 one-touch hotkeys including media controls that make music or video playback much easier and for launching other applications such as Internet page browsing, Email, Dashboard, iChat and the music tool of iTune applications.

The mouse features rigid laser technology and is better than an optical mouse and provides more surface coverage and enhances the smoothness of the cursor movement. It also uses power saving technology (PST) to provide extended battery life for up to 8 months or longer; thus reducing money spent on battery purchases. The dongle receiver with a transparent finish highlights the fresh design and receiver capability to ressult a smooth and relaibale wireless freedom.

SlimStar 600 Laser for Mac compliments various flat Mac screen panels and offers a total evolution experience for Mac systems. For fiurther inquiries, please contact our sales representative.
